

## **Asli Kanan**

Asli Kanan is an Assistant Professor at Istanbul Technical University (ITU), Faculty of Architecture. She received her PhD degree in Architectural Design from ITU, and got the Best Dissertation Award for mathematically predicting spatial usage in open-planned buildings. She teaches soft computing methods including fuzzy logic and evolutionary algorithms in Architectural Design Computing Graduate Program. She is conducting interdisciplinary AI projects on the basis of visual arts, design and machine learning. She was a visiting researcher at CASA-UCL, UK and the University of Newcastle, AU in 2012-2013. She is now advisor to the Rector for Projects and Research at ITU North Cyprus campus.
